PART II

SUBJECT INDEX	131
-------------------------	-----

INTRODUCTION

This bibliography is an attempt toward a complete compilation of all publications issued by official Florida Agencies for the ten year period covered. The compilers used the resources of the University of Florida Libraries and prepared a preliminary draft. Then, in order to make the listing as nearly accurate as possible, the assistance of the librarians at the State Library, Florida State University, and Florida Agricultural and Mechanical University was solicited in checking and editing the lengthy type-written list. Additions and corrections suggested by these librarians were incorporated into this preliminary edition of the bibliography.

In 1941 when the University of Florida Library was made a depository for Florida documents, a card record of all documents received was established. The following year in July, the Library initiated its bi-monthly publication: Short-Title Checklist of Official Florida Publications Received by the University of Florida Library, which is still the only published Florida list available.

In 1943, Miss Dorothy Gwendolyn Lloyd, then a librarian at the University of Florida, compiled and submitted to the University of Illinois a thesis entitled: Official Publications of Florida, 1821-1941, the first known compilation of Florida documents.

No further comprehensive attempt to index Florida publications was made until 1950 when G. Elizabeth Woodall compiled at Florida State University a thesis entitled: A Bibliography of Official

Florida Publications Classified According to Issuing Agency with
a Subject Index for the Period: July, 1947, through December, 1949.

This covered a two and a half year period only which left a gap from January, 1942, through June, 1946. However, it was the first attempt at the classification of Florida documents. The arrangement is by agency with titles alphabetized and numbered consecutively. Since the subject index includes only the numbers referring to the title entry, but not the title, it is too cumbersome for extensive use. Nevertheless, the thesis laid the foundation for the present work.

The Short-Title Checklist of Official Florida Publications, Florida Documents Received by Florida State Library, the Library of Congress Monthly Checklist of State Publications, Florida State University, Florida Agricultural and Mechanical University and the Florida State Library holdings, as well as correspondence with the agencies, were used in gathering the information for the bibliography. The titles were placed in alphabetical order under the official agency name in use in December, 1951. The publications received at the University of Florida during the interval following the dates covered by Miss Lloyd's thesis and the first issue of the Short-Title Checklist have been added along with publications received too late to be included in the latter as current publications. The bibliography comprises Part I of this preliminary edition.

Each title in Part I was classified in Part II according to the standard subject index used in the field. All agriculture titles

were assigned subject headings used in the Agriculture Index; education subjects conform to Education Index, etc. In many instances more than one subject heading was assigned when the nature of the document warranted multiple entries.

The complete bibliographical citation is not included under the subject in every instance. Whenever possible, inclusive dates and inclusive series are listed under the title which is cited only once. For separate publications the citation is complete.

Every effort was made to list all official documents published in Florida during this period. However, the compilers realize that some titles may have been omitted and would welcome any additions so that they may be added to the final edition of this bibliography.

We are indebted to colleagues at the University of Florida for their suggestions and criticisms, particularly Miss Margaret Enid Knox and Miss Frances Apperson. Our thanks are also due to Mr. Norman L. Kilpatrick, Miss Frances Haynes and other members of the staff at Florida State University Library, Dr. Dorothy Dodd, State Librarian, and Mr. J. Luther Thomas, Librarian at the Florida Agricultural and Mechanical University, for their assistance.

- The Engineering Experiment station as a stimulus to the graduate program, by Ralph A. Morgen. 52-55p. (Technical paper no. 23, December, 1948). Reprinted from the Journal of engineering education, v. 39, no. 1, September, 1948.
- Engineering progress at the University of Florida.
note: Beginning in March, 1949, the Engineering and Industrial Experiment Station started publishing its bulletins, technical papers and circulars in this series although continuing the numbering of the original three series.
- Enthalpy concentration diagram for hydrogen fluoride water system at one atmosphere, by Mack Tyner. 1949. [2]p. (Technical paper no. 31, Engineering Progress, vol. III, no. 5).
- Equalization through steady-state methods, by William J. Kessler. (Technical paper 25, Engineering Progress, vol. III, no. 4, June, 1949).
- An evaluation of Sunniland crude petroleum, by H. E. Schweyer and C. H. Edwards. May, 1949. 43p. illus. (Bulletin no. 27, Engineering Progress, vol. III, no. 3).
- Expectancy and intensity of excessive rainfalls at Jacksonville, Florida, 1910-1948, by David B. Smith. February, 1951. [8]p. (Technical paper series no. 57, Engineering Progress, vol. V, no. 2).
- Faculty personnel factors and promotions, by Joseph Weil. February, 1950. [5]p. (Leaflet no. 12, Engineering Progress, vol. IV, no. 2, supplement).
- Florida, a look into the future, by George B. Hillis. September, 1951. [3]p. (Leaflet series no. 25, Engineering Progress, vol. V, no. 9, supplement).
- Florida hurricanes of 1950, history and analysis, by D. C. Bunting and [others]. July, 1951. 36p. (Bulletin no. 45, Engineering Progress, vol. V, no. 7).
- Florida lime rock as an admixture in mortar and concrete, by H. H. Houston and R. A. Morgan. February, 1945. [6]p. illus. (Technical paper series no. 3. Reprinted from Pit and Quarry, October, 1944).
- Florida limestone and a paint extender, by A. L. Kimmel and Mack Tyner. 3p. illus. (Technical paper no. 18, January, 1948. Reprinted from Rock Products, January, 1948).

- Florida scrub oak--new source of vegetable tannin, by H. N. Calderwood and W. D. May. June, 1946. 3p. illus. (Technical paper series no. 10).
- Florida spray gun for pine tree gum flow stimulation, by Norman Bourke and Keith W. Dorman. 36p. illus. (Bulletin no. 10, March, 1946).
- Fungicide treated cotton fabric outdoor exposure and laboratory tests, by S. S. Block. October, 1949. 7p. (Technical paper series no. 33, Engineering Progress, vol. III, no. 8).
- Granular stabilization with lime rock, by J. A. Bishop. December, 1950. 6p. (Technical paper series no. 52, Engineering Progress, vol. IV, no. 12, supplement).
- The heat pump--A gold mine? by G. E. Sutton. August, 1951. 3p. (Leaflet series no. 30, Engineering Progress, vol. V, no. 8).
- Impedance matching techniques, by William J. Kessler. 2p. (Technical paper 22, October, 1948).
- Impedance of resonant transmission lines and wave guides, by Willis W. Harman. 4p. (Technical paper 44, Engineering progress, v. 4, no. 4, supplement, April, 1950).
- Injection molding of the acid spray gun nozzle, by H. W. Burney. 5p. (Leaflet series 27, Engineering progress, v. 4, no. 11, supplement, November, 1950).
- Insect tests of wire screening effectiveness, by S. S. Block. 8p. illus. (Technical paper 13, Engineering progress, v. 36, no. 11, November, 1946).
- Intermittent sand filter studies, by G. R. Grantham, D. L. Emerson and A. K. Henry. 14p. (Technical paper 41, Engineering progress, v. 4, no. 3, supplement, March, 1950).
- Investigation on dehydration of tung nuts, by James T. Leggett and Seymour G. Gilbert. 35p. illus. (Bulletin 21, July, 1948).
- Lightweight aggregate production from phosphate slimes, by R. C. Specht and W. E. Herron, Jr. 2p. (Technical paper 48, Engineering progress, v. 4, no. 8, supplement, August, 1950).
- The lime industry in Florida, an intangible analysis, by J. N. Duncan. 10p. (Technical paper 62, Engineering progress, vol. 5, no. 12, supplement, December, 1951).
- Lime rock in concrete. Part I, by Harry H. Houston and R. A. Morgen. 36p. illus. (Bulletin 7, June, 1944).
- Low temperature calcination rates of limestone, by Archie Wakefield, Jr. and Mack Tyner. 5p. (Technical paper 53, Engineering progress, v. 4, no. 12, supplement, December, 1950).
- Manufacture of sand-lime brick, by Mack Tyner. 4p. (Technical paper 29, Engineering progress, v. 3, no. 5, July, 1949).
- Measuring pump performance during operation, by N. E. Ebaugh. 10p. (Technical paper 28, Engineering progress, v. 3, no. 4, June, 1949).
- Mildewproofing compounds, by S. S. Block. 6p. illus. (Technical bulletin 17, January, 1948. Reprinted from Chemical industries, February, 1948).
- Mold and mildew control, by S. S. Block. 50p. illus. (Bulletin 12, November, 1946).
- Opportunities for lime production in Florida, by Mack Tyner. 2p. (Leaflet no. 24, Engineering progress, v. 4, no. 8, supplement, August, 1950).

- Organic reducing agents as air-dries in unsaturated polyester resins, by D. M. French. [4]p. (Technical paper no. 35, Engineering progress, v. 3, no. 9, November, 1949).
- Patent policies for sponsored research, by Ralph A. Morgen. [3]p. illus. (Technical paper 8, May, 1946. Reprinted from the Journal of engineering education, v. 36, no. 10, June, 1946).
- Phosphate waste studies, by R. C. Specht. 28p. (Bulletin 32, Engineering progress, v. 4, no. 2, February, 1950).
- Precooling of citrus fruits, by J. T. Leggett and G. E. Sutton. 3lp. (Bulletin 43, Engineering progress, v. 5, no. 5, May, 1951).
- Preservation of the color and shape of flowers, by Randolph C. Sprecht. 29p. (Bulletin 40, Engineering progress, v. 4, no. 12, December, 1950).
- Proceedings of the Florida highway conference. Annual.
- First. May 12-13, 1947, sponsored by Civil engineering section. 104p. illus. (Bulletin 19, November, 1947).
- Second. May 31 - June 1, 1948, sponsored by Civil engineering section. 105p. illus. (Bulletin 22, August, 1948).
- Third. May 9-10, 1949, sponsored by the Civil engineering department. 64p. (Bulletin 31, Engineering progress, v. 4, no. 1, January, 1950).
- Fourth. May 11-12, 1950, sponsored by the Civil engineering department. 68p. (Bulletin 39, Engineering progress, v. 4, no. 11, November, 1950).
- Proceedings of the National public health engineering conference. Annual.
- First. November 12-13, 1948, sponsored by the Civil engineering section. 118p. (Bulletin 26, Engineering progress, v. 3, no. 2, April, 1949).
- Second. November 18-19, 1949, sponsored by the Civil engineering department. 59p. (Bulletin 35, Engineering progress, v. 4, no. 7, July, 1950).
- Third. October 23-24, 1950, sponsored by the Civil engineering department. 43p. (Bulletin 42, Engineering progress, v. 5, no. 4, April, 1951).
- Proceedings of the Structural engineering conference. Annual.
- First. March 3-4, 1950, sponsored by the Civil engineering department. 54p. (Bulletin 37, Engineering progress, v. 4, no. 9, September, 1950).
- Second. March 16-17, 1951, sponsored by the Civil engineering department. 39p. (Bulletin 47, Engineering progress, v. 5, no. 10, October, 1951).
- Proceedings of the Surveying and mapping conference. Annual.
- First. October 22-23, 1948, sponsored by Civil engineering section. 76p. illus. (Bulletin 24, January, 1949).
- Second. October 6-7, 1949, 61p. (Bulletin 33, Engineering progress, v. 4, no. 4, April, 1950).
- Third. November 15-16, 1950, sponsored by the Civil engineering department. 32p. (Bulletin 44, Engineering progress, v. 5, no. 6, June, 1951).
- Production cost estimate of sand-lime brick made in Florida, by Mack Tyner and A. J. Greaves-Walker. [2]p. (Technical paper 30, Engineering progress, v. 3, no. 5, July, 1949).

- Progress report on trickling filter studies, by G. R. Grantham and others. [8]p. (Technical paper 50, Engineering progress, v. 4, no. 11, supplement, November, 1950).
- Properties of limerock concrete, by Mack Tyner. [22]p. illus. (Technical paper 14, December, 1945. Reprinted from Quarterly journal of the Florida academy of science, v. 8, no. 4).
- Properties of plain and reinforced limerock concrete, by S. L. Bugg and D. A. Firmage. 32p. (Bulletin 36, Engineering progress, v. 4, no. 8, August, 1950).
- Protection of paper and textile products from insect damage, by S. S. Block. [6]p. (Technical paper 60, Engineering progress, v. 5, no. 8, August, 1951).
- Protection of small buildings against high velocity winds, by Robert A. Thompson. 52p. (Bulletin 28, Engineering progress, v. 3, no. 7, September, 1949).
- Protein feed from sulphite waste liquor, by R. D. Walker, Jr. and R. A. Morgen. 5p. illus. (Technical paper 11, August, 1946)
- Pulping of scrub oak by the Kraft process, by R. L. Harvin and others. [12]p. (Technical paper 49, Engineering progress, v. 4, no. 10, supplement, October, 1950).
- Radar observation of Florida hurricane, August 26-27, 1949, by M. H. Latour and D. C. Buntin. 11p. (Bulletin 29, Engineering progress, v. 3, no. 8, October, 1949).
- Radiological health and civil defense, Fourth national public health engineering conference, March 27-30, 1951. 107p. (Bulletin 48, Engineering progress, v. 5, no. 11, November, 1951).
- Rational design criteria for sewage absorption fields, by J. E. Kiker, Jr. [10]p. (Technical paper 51, Engineering progress, v. 4, no. 11, supplement, November, 1950).
- Reciprocal aspects of transient and steady-state concepts, by W. J. Kessler. [3]p. (Technical paper 59, Engineering progress, v. 5, no. 6, supplement, June, 1951).
- Report of limerock research, 1941-1948, by C. D. Williams and Mack Tyner. 52p. (Bulletin 25, Engineering progress, v. 3, no. 1, March, 1949).
- Research at the Florida engineering and industrial experiment station. 23p. (Bulletin 49, Engineering progress, v. 5, no. 12, December, 1951).
- Research for the pulp and paper industry in the South. 20p. (Bulletin 38, Engineering progress, v. 4, no. 10, October, 1950).
- Research in equipment for the production of gum naval stores, by Milton E. Ryberg and H. W. Burney. 20p. (Technical paper 32, Engineering progress, v. 3, no. 6, July, 1949).
- Reverse cycle refrigeration for heating in the South, by S. P. Goethe. 48p. illus. (Bulletin 14, June, 1947).
- A roof spray for reduction of transmitted solar radiation, by G. E. Sutton. [7]p. (Technical paper 54, Engineering progress, v. 5, no. 1, January, 1951).
- The sanitary research laboratory of the University of Florida, by D. E. Emerson, Jr. and Earl B. Phelps. 34p. illus. (Bulletin 20, December, 1947).

- Scrub oak as a potential replacement for chestnut, by H. N. Calderwood and W. D. May. pp. 62-80. (Technical paper 15, February, 1947. Reprinted from the Journal of the American leather chemists association, v. 42, no. 2, February, 1947).
- Second short course in industrial instrumentation, September 11-13, 1950, sponsored by the Chemical engineering department. 4lp. (Bulletin 41, Engineering progress, v. 5, no. 3, March, 1951).
- Sewage treatment at the University of Florida, by John E. Kiker; New sewage plant provides for treatment, research, instruction, by Charles E. Rickheimer and Walter J. Parks. [12]p. mim. (Technical paper 24, January, 1949).
- The solvent extraction of asphaltic residues, by H. E. Schweyer and O. M. Brown. [6]p. (Technical paper 39, Engineering progress, v. 4, no. 3, March, 1950).
- Special anodes for the cathodic protection of water tanks, by A. K. Kimmel. 4p. (Technical paper 34, Engineering progress, v. 3, no. 9, November, 1949).
- Special relativity and the electron, by Willis W. Harman. [8]p. (Technical paper 42, v. 4, no. 4, supplement, November, 1949).
- A stabilized voltage-dropping element, by Sydney E. Smith. [3]p. (Technical paper 43, Engineering progress, v. 4, no. 4, supplement, April, 1950).
- Stream sanitation in Florida, by E. B. Phelps and D. E. Barry. 55p. (Bulletin 34, Engineering progress, v. 4, no. 5, May, 1950).
- Studies on intermittent sand filtration of sewage. Part I: Current operational practices and preliminary laboratory investigations, by D. L. Emerson, Jr. 29p. (Bulletin 9, November, 1945).
- A study of some metals for use as permanent anodes in water-tank cathodic protection series, by A. L. Kimmel. [7]p. (Technical paper 55, Engineering progress, v. 5, no. 1, January, 1951).
- Study of tannin contents of barks from the Florida scrub oaks, *Quercus laevis* and *Q. cinerea* by J. S. Rodgers and others. [19]p. (Technical paper 56, Engineering progress, v. 5, no. 2, February, 1951).
- Subsurface sewage disposal, by John E. Kiker, Jr. 72p. illus. (Bulletin 23, December, 1948).
- The system sodium acetate-sodium hydroxide-water, by R. A. Morgen and R. D. Walker, Jr. 8p. (Technical paper 7, December, 1945).
- The technology of tall oil with special reference to the paint and varnish industry, by D. L. Emerson, Jr. [6]p. (Technical paper 38, Engineering progress, v. 4, no. 3, March, 1950).
- Tests of insect wire screening, by H. W. Burney and H. B. Williams. [5]p. (Technical paper 36, Engineering progress, v. 3, no. 9, November, 1949).
- Titanium rapidly growing as useful engineering material, by W. T. Tiffin and P. C. Hoffman. [3]p. (Leaflet 28, Engineering progress, v. 5, no. 4, supplement, April, 1951).
- Transient response equalization through steady-state methods, by W. J. Kessler. [4]p. (Technical paper no. 25, Engineering progress, vol. 3, no. 4, June, 1949).
- Watermelon seed harvest machines improved, by H. B. Williams. [3]p. (Leaflet 13, Engineering progress, v. 4, no. 7, supplement, July, 1950).

- Weather and electronics research, by E. D. Kennedy. 2 p. (Leaflet 13, Engineering progress, v. 4, no. 4, supplement, April, 1950).
- What, when and how much, by R. A. Morgen. 3 p. (Leaflet 29, Engineering progress, v. 5, no. 8, August, 1951).
- What will be the relative humidity? by S. P. Goethe. 6 p. (Technical paper 26, Engineering progress, v. 3, no. 4, June, 1949).
- Yeast from Florida sulphite waste liquor, by Robert D. Walker, Jr. [8]p. September, 1947. (Technical paper 16. Reprinted from Quarterly journal of the Florida academy of science, vol. 9, no. 3-4).

UNIVERSITY, GAINESVILLE. GENERAL EXTENSION DIVISION.

- Air age education. July 23-24, 1951. [3]p. (General extension division record, v. 32, no. 20, extra no. 2, May 15, 1951).
